a few further minor changes, is the opinion of many of the coaches and players of the New England college elevens at the close of the present season. From the spectators' standpoint the game proved more popular than ever before.

Injuries were less in number and in seriousness than for many years, only one fatality occurring in this section, That one was on Thanksgiving day at Winsted, Conn.

host of friends here, played first e on the Norwich team from 1900 1906. He was captain of the team turing all of this period and for a good art of the time was manager as well. part of the time was manager as well. His team won two pennants for Norwich, the first time in the year 1900, and again in 1905, and it is to him that is due the credit for first bringing Danny Murphy into the limelight. In 1900, the year that Norwich won the pennant, Jack Tighe secured Danny Murphy of Attleboro, Mass., as his second baseman, but in 1902 sold him to the New York Americans for \$1,500. Both of these men have since developed into national figures in the baseball world.

For the past three years Manager For the past three years Manager Tighe has been in charge of the Rock Island team of the Three I league. For the first two seasons of his management his nine won the league pennant, and last year, with a team made up of green players entirely, he was able to take second place. He was in company with another parry in Rock Island and was engaged in the suit cleaning and pressing business, and so successful were they that Mr. Tighe had about decided to remain in Rock Island. This call of the Seattle team has brought about a change in his plans, and will again.

U. S. STEEL, U. P., AND READING Held the Overwhelming Preponderance of Activity Over the Entire Market. New York, Nov. 28 .- A number of

actors combined to cause the acute weakness of stocks today, some positive and some merely passive. The most significant fact in the day's greatly expanded dealings, however, was that United States Steel, Union Pacific and Reading held to the full Pacific and Reading held to the full the overwhelming preponderance of activity over the whole market combined which have characterized these stocks for weeks past. This fact offered convincing evidence that reversal of position by the small group of wealthy speculators and bankers who have practically carried the whole of recent markets was in progress.

The disappointing action of Lehigh Vailey on its introduction the New York stock exchange was a more passive influence on the day's weakness, but not less effective on that account. but not less effective on that account. The closing price of Saturday in Phil-ndelphia of 91 1-4, was translated ino New York terms of 188 1-2, thereore, and the fluctuations were accordingly doubled in range. In addition, it had been expected that the apitalists active in Lehigh Valley and in Rock Island, with a supposed sup-dementary speculative interest in Reading, would signalize the entrance of the new stock by a bullish demon-stration. Instead there seemed to be efforts to take advantage of this ex-pected demonstration to market stocks. Lehigh Valley itself dropped

to 179 1-2.

The suspicion that the sources of the selling were the same as nearly all of the recent buying constituted the weakness of the market, which became acute in the entire absence of demand at offered prices. The fall in Read-ing of 4 1-2 and Union Pacific and united States Steel 3 3-3, were fairly representative of the whole market. There were many losses reaching three points and some over five. Last prices were about the lowest.

"There is no question that under the new rules there has been a decrease in the number of injuries. I contend though, that the new rules have not succeeded in making the game more interesting to the public. "When our baby was seven weeks old he broke out with what we thought was heat but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Atchison but he only got worse. His face, head and hands were a solid sore. There was no end to the suffering for him. We had to tie his little hands to keep him from scratching. He never knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours in the night and his health wasn't what you would call good. We tried everything but the right thing. Finally I got a set of the Cuticura Remedies and am pleased to say we did not use all of them until he was cured. We have waited a year and a half to see if it would return but it never has and today his skin is clear and fair as it possibly could be. I hope Cuticurar may save some one else's little one's suffering and also their pocket-books. John Leason, 1403 Atchison St., Atchison, Kan., Oct. 19, 1909."
